This is a chronological list of 1,119 letters from Edward Thomas that have been formally published, together with an index of the 45 different recipients. I have indexed only sources containing the full letters, with the following exceptions:

- I have included everything in the 'Letters' section of *The life and letters of Edward Thomas* by John Moore. Most of these are only extracts, but all are dated and many are unavailable elsewhere. I have not noted these as 'extracts'.
- I have included everything in *Edward Thomas's poets* edited by Judy Kendall: some letters here are only extracts, and I have noted these.
- I have included the three letters presented in full facsimile in *Edward Thomas: a biography and a bibliography* by Robert P. Eckert, but none of the many extracts in the text.
- See ETFN42B in the list of sources index.

The following shows most elements that might be present in an entry in the list:

1913 Feb            Harold Monro  
Undated. PW suggests February 1913: ETFN42 suggests late 1911  
    ETFN42B P.8 (extract)  
    PWB # 11, p.55

A letter sent in February 1913 to Harold Monro, published in the sources represented by the code ETFN42, where it begins on page 8, and is only an extract, and by the code PWB, where it is given the number 11 and begins on page 55. A note states that it is undated, and that the two sources suggest different dates. (When this has happened, I have used my judgement as to which date to use.)

The list is in chronological order, with the date normally given to the nearest month (and occasionally the nearest year) when the exact date is uncertain. If there is more than one recipient for letters on a particular date, the entries are sorted by the surnames of the recipients. Date are suffixed 'a', 'b' etc. when there is more than one to a particular recipient on a particular date. Dates suffixed with 'm', 'n', etc. are approximate but appear precise to

ensure correct sequencing where this is known: these are, with one exception, from LFY or PTP.

The following shows part of an entry in the name index:

Bottomley, Gordon  
1902 Sep 30 LGB # 1, p.37  
1902 Oct 17 LGB # 2. p.38; LLET P.284

The locations of each letter are given in the name index using the same codes as in the chronological list.

The recipients in the list are named as they are in the source, that is normally in direct order, whereas the index uses the form with surname first. In a few cases the sources use phrases such as 'His father': the list also uses this form, but the index uses the full name, with the phrase added for clarity 'Thomas, Philip [His father]'.

The 1st revision corrects some mistakes on my part, corrects some dates in LFY thanks to details in *Now all roads lead to France : the last years of Edward Thomas* by Matthew Hollis, and includes the newly published PTP. It also uses a different format for the name index.

The 2nd revision corrects some more mistakes, and includes the newly published ETFN77.

The 3<sup>rd</sup> revision corrects some more mistakes, especially the omission of ETOH, and includes the newly published CIL (which has established some corrections to dates) and ETFN86.

I would be glad to be informed of any errors and omissions through [graham140@btinternet.com](mailto:graham140@btinternet.com).

This article contains many extracts and a few complete letters found in the Poetry/Rare Books Collection of the State University of New York at Buffalo, mostly to Harold Monro. These are almost all to be found in PWB, although often with different dates suggested. I have treated the PWB dates as correct. Only the fuller extracts are indexed.
